

FIND ME HERE

(Joel Limpic)

C F
Find me here, searching for the words to speak
G/B F
This year has been so crazy and I'm fighting just to breathe
So if I'm short, I'm sorry, know that I don't mean to be
This all used to come so easy but my strong has grown so weak

C G Am
You are God and I am man, I can't wrap my mind around You
F G
Or begin to understand You
C G Am
You are big and I am small, through surrender I can see You
F G C
Just a glimpse, but that's enough for me

I'll admit, along the way I've lost a little faith
But it's hard to see the ones you love bend until they break
And I cried to you to see us through but never heard you speak
So I pray through all these doubtings, I'm not hindered from belief

F
When I'm wordless, when I'm faithless
C
When I'm hopeless, when I'm helpless
F G
You're still near, you're still here
In this darkness, in this silence
You're beside me, You remind me
I'm not alone, you're still here

Find me here searching for the words to speak
Until I do I pray these feelings find their way to You
